

**Super Mat** is an ideal **barrier against moisture and damp soil**. The mat **ensures that tough oil and grease** found in industrial and production businesses such as kitchens and workshops **are kept away from other areas**. These mats do a **great job at absorbing**, which means that they quickly become very dirty and for this reason need to be washed regularly. Also referred to as a *“Grease Mat”*.

#### PRODUCT PROPERTIES

- Tufted cotton surface
- Slip resistant rubber backing
- Extremely high-water absorption
- PVC-free
- **Serviceable product**
- 2 years manufacturers guarantee
- Made in South Africa

#### APPLICATION AREAS

- Indoor placement
- High traffic areas that pose oil or water contamination risks such as at kitchen or workshop exit points. **NOT** to be placed in front of food preparation areas, such as deep fat fryers etc.

*Pile: Tuft cotton surface*

*Backing: 100% nitrile rubber*

#### MATERIALS

- Pile: Tufted cotton surface
- Backing: 100% nitrile rubber

#### STANDARD SIZES
